SUNDAY, JULY 18, 1869.

The Social War.

The abolition of slavery in the United States of America was more an act of policy, a strategic act of war, in fact, than it was an act of justice. We do not mean to say that it was not an act of justice, for it was such in the highest sense; but we merely allude to the policy and motives which characterized the national act. It will not be forgotten how that Abraham Lincoln announced his readiness to perpetuate or abolish slavery for the purpose of maintaining the Union. The civil war only gave place to a social war. It was hardly to be expected that four millions of people who had been hunted down in African jungle, and sold into perpetual slavery in the Southern States, should all at once find their proper place after so astounding a revolution as instantaneous emancipation; yet we venture to think few persons expected that this great mass of manumitted humanity would so readily and so gracefully accommodate itself to the new condition of things. Much has been said about the inferiority of the race. Inferiority, indeed! Britons were at one period in their history pronounced to be "Too stupid for slaves." We are strongly disposed to think that there are few peoples on the face of the earth who, if taken from their native barbarism, and submitted to the same process of servitude, would have acquitted themselves as well, or approved themselves equally fitted to be free men, as have the recent slave population of the South. Although only about four years free, we see them sitting side by side with their former owners on juries, while white and coloured officers maintain order. All this is done and yet Justice is not overwhelmed. But it is not alone in the judicial branches that they have taken their position alongside of their white fellow-citizens. In several instances they have been selected to represent the Great Republic at foreign courts, while they are to be found in the pulpits, in the halls of legislation, and in the learned professions; and the best of all is that, so far as tried, they have approved themselves not undeserving of being admitted to citizenship and political and social equality. Yet all is not serene in the South. In the avenues of skilled labor, especially, there is a fearful struggle going on between the two classes, and a war has to be fought in "Trades Unions." A sort of test case has been before the public for some time. Fred Douglas, as an American citizen of African descent, has, through his son, a printer by trade, raised an issue in the Printer's Union at Washington, which threatens to array all the trades unions of the United States against the Administration. The younger Douglas had tried in several places for admission into the working printer's society, but had been refused on account of his colour. Superintendent Clapp, of the national office, regarding this exclusion an unjust thing, gave Douglas employment without the consent of the printers' union directly concerned; hence the issue raised, an issue which it is evidently determined to carry into the halls of Congress. How is the Administration to bridge over this difficulty? General Grant, in his appointments of coloured men as ambassadors to foreign courts, as assessors of internal revenue, as postmasters, &c., has fully committed his administration to the doctrine of equal rights to white men and black men in the government service. The appointment of Douglas in the government office is perfectly consistent with these other appointments. What is to be done? General Grant and his administration cannot recede from the position already taken. An American writer suggests the following way out of the new difficulty:—

"We have heard that some of the republican leaders, snuffing this new negro agitation in the air, propose, as a counter-irritant, an active agitation of Senator Sumner's proposed ultimatum on the Alabama claims. It is calculated that in this movement the acquisition of the solid Irish vote for a war with England will amply compensate for the loss of all the white republican mechanics who refuse to fraternize in their workshops with black men. Herein, too, may lie one of those urgent political necessities which frequently drive our political parties to the most desperate expedients for the popular balance of power. Moreover, in this view after all the sin of African slavery in this country may bring its condign punishment upon England, the founder of the pernicious institution. In truth, such is the transition state of American politics just now that it must soon bring about some extraordinary movements."

We will only allude, in conclusion, to the most unjust fling at Great Britain. Thirty years before the Free Republic of America was forced into abolition, in order to maintain the political union, the British Government had voluntarily, and as an act of sacred justice, abolished slavery within its dominions. Such threats as the writer above quoted indulges in, come with exceeding bad grace from that quarter. We feel confident that a great and generous people like the Americans will have little sympathy with the sentiments of such a writer.

The Beer Case.

MR. EDITOR.—In reference to your observations to-day on this matter, permit me to say that I believe the objects of the Game Law Society are thoroughly good and laudable, and in the late case, in which I was Counsel for the accused, the prosecution failed in consequence of the omission of certain words in the last Ordinance, which defect I hope to see remedied by an Act of the ensuing session of Parliament, before the next close season commences, so as to prevent the killing and sale of deer out of season.

Yours truly,
ROBERT BISHOP.

Saturday morning.

P. S. Since writing to you, this morning, I was really surprised to find, according to the statement of your contemporary of the *Evening News*, that I had been guilty of the vandalism of "driving a coach through local statutes." At the time the *Evening Luminary* was put into my hands, I was about to go up the river with a friend, but before doing so I wished to see you on the charge brought against me. My friend dissuaded me, by stating that the boy who did the reporting at the Police Court, and who is the "we" referred to in the statement alluded to, does not know the difference between a statue and a statute, in which I am disposed to concur. R. B.

ACCIDENT INSURANCE.

TRAVELER'S INSURANCE CO.

OF HARTFORD.

CASH ASSETS, OVER ONE MILLION.

Small Cost and Large Benefits.

This Insurance is valuable to all classes of men, and may be procured by thousands whose condition of health or purse will not admit of a full life policy. Its actual benefits are clearly shown by

Over \$875,000 Paid in Losses

among Nine thousand Five Hundred Policy-holders, in sums of \$5 to \$10,000 each, for death or disability caused by accident. No other Insurance Company in the world, of the same age, ever returned so much money to its policy-holders. While it has met these heavy losses promptly and liberally; it has also, from its earnings, paid its necessary large expenses, and even its capital and surplus reserve to a round million of dollars, thus achieving a

Success in Accident Insurance unequalled in any Country.

Among the losses paid under accident policies were 134 deaths, on which the total premiums paid were only \$2,397, while the sum paid amounted to \$364,000, the policy-holders thus realizing

The Sum of \$364,000 for \$2,397 in Premiums.

Prospectuses and every information can be obtained from the undersigned, who is fully authorized to accept risks.

GUNPOWDER.

Sporting, Rifle, Cannon, Mining & Blasting.

Fresh from the Mills of

THE CALIFORNIA POWDER WORKS.

Extract from Report of Committee of Judges on Class 5 in the Sixth Industrial Exhibition of the California Mechanics' Institute, 1868:

Your Committee did not subject to proof the samples of powder exhibited at the Fair, but went to the different magazines, and themselves selected samples from packages destined for the trade.

The various samples thus obtained, embracing Sporting, Cannon, Mining, and Blasting Powder, were subjected to divers proofs, the chief of which, and that upon which we most relied, was with the "Epprenette" mortar, charged with one ounce of powder and a twenty-four pound ball.

After many days consumed in careful experiments—time which we freely bestowed, because of the great interest felt in the question both by the competing parties and the public—and after careful comparison of the results obtained, we found that the powder submitted to test was of excellent quality. We also found that the superiority, on the whole, rested with the California Powder Works, and we recommended an award of a gold medal to that company, and a silver medal to the Pacific Powder Mills.

Signed,

JOHN J. HALEY, HENRY J. PIPPY, Committee.

SHIPPING INTELLIGENCE.

PORT OF VICTORIA, BRITISH COLUMBIA.

ENTERED.

Str. Colfax, Conch. Port Townsend
Str. Colfax, Conch. Port Townsend

COLLISION.—Our Harbour has not been so well filled for a very long period as it has been during the last week. Indeed very few hours can appear to better advantage when the varied coasting vessels are lying at their respective wharves, the sloops in white sail moving out and in, the numerous canoes laid up on the reserve, or following each other out to sea, and the well-filled pleasure boats moving to and fro. On Friday evening, at 5 o'clock, the sloops Random and Julia, the one entering and the other leaving, came into collision opposite Lang's wharf. Fortunately the wind was not blowing much, and they were speedily cleared without damage. It is said that one of the buoys in the harbour has got out of its place. It might be well for the authorities to see to it.

SCHOOL MEETINGS.—During the last few weeks there has been much activity manifested in regard to the District Schools, both by the Administrator of the Government and the people themselves. A meeting has been held at Esquimalt, under the auspices of the Rev. Messrs. Gribbell and Somerville, and a committee nominated to take steps for the establishment of a School, Mr. Dobbin, chairman. A meeting of the inhabitants of Craigflower District has been called for Wednesday, at 2 p. m., and there will be another at Cedar Hill next Saturday. We are glad to notice that so much good is likely to result from the Public School Ordinance of last session.

CAMP MEETING.—The Wesleyan body will hold a camp-meeting at Maple Bay, commencing on the 23d. The steamer Enterprise has been chartered to take parties to and from Maple Bay. Those going from here will leave on Friday, and those going from New Westminster will come by the steamer on Saturday. Tickets will be \$5, for a single person or for a family, there and back. The trip itself will be a cheap and pleasant one.

NAVAL.—On Friday His Honour the officer administering the Government dined with the French Admiral on board the L'Astree. Last evening the British Naval Officers dined on board the L'Astree. On Monday Mr. Spark will entertain the French Naval Officers at a picnic. It is believed the French Gunboat La Mothe Picquet will sail for San Francisco to-day, and the Frigate L'Astree to-morrow.

RESERVED.—The Chief Commissioner gives notice of the reservation for a period of two years of a certain piece of land, being the peninsula between Mudge Harbour and Mitchell Harbour, in Port Kuper, Moreby Island, one of the Queen Charlotte group. It strikes us that in making these reservations it might be desirable to state the object.

BASE BALL.—The match game between the Olympic and Dominion base ball clubs took place yesterday afternoon, at Beacon Hill, and after a well-contested game of seven innings, resulted in favor of the Olympics by 31 runs. The total scoring was, Olympics 71 runs and Dominion 40. Owing to the lateness of the hour, the full game of 9 innings was not played.

FROM NEW WESTMINSTER.—The Steamer Enterprise returned from New Westminster yesterday afternoon, at 4 o'clock. She brought 10 passengers, among whom were Captain Peyron of the French War Ship L'Astree, F. H. Lamb, Esq., Superintendent of the Telegraph line, and one of the Sisters of St. Ann's. No news from the Upper Country.

GRASSHOPPER.—In our notice of the examination of the School taught by Miss Wells, in classifying the pupils two very important classes were omitted, viz., Algebra and Bookkeeping. It will be seen by reference to our advertising columns that the school will be re-opened on Monday, the 2nd August.

SALE OF SCHOONER.—Saturday's Gazette announced that "The Schooner Nanaimo Packet" having been seized and confiscated for a breach of the Indian Liquor law, Mr. L. Franklin has been duly authorized by the Government to sell the said Schooner by public auction, at an early date.

THE WATCHMAKER.—Nathan Weiss was again before the Police Court yesterday, on remand for being a suspicious character. Several witnesses appeared against him as having borrowed money on watches obtained for the purpose of repair. The prisoner was again remanded for three days, for further examination.

EXAMINATION.—There will be an examination, on Tuesday next, of the School in the Convent of St. Ann's. The examination will commence at 9 o'clock a. m., and will be concluded on the same day. The parents and friends of pupils, and the public generally, are cordially invited to attend.

CHARITY.—A movement has been made to aid the widow and family of George Greenwood, who died so suddenly during the last week. Any who may be overlooked by those collecting, and who may wish to contribute, can leave their contributions at this office.

FATAL ACCIDENT.—On Thursday last a man employed at the spar camp, at Howe Sound, was fatally injured by a spar rolling over him. While being conveyed to New Westminster, he died. He was a native of Sweden.

Editorial Notes.

It is rumoured that H. M. S. Sparrowhawk is under orders for the North West coast and that she will take the two Indians recently convicted of murder round to the scene of their crime for the purpose of being executed in the presence of the tribe. We feel impelled again to urge upon the authorities the duty of further investigation, before executing these Indians. There is reason to believe that if guilty they are by no means the most guilty of their tribe. The facts, if facts they be, are susceptible of easy proof. If the statement we copied from a Puget Sound paper, and which was subsequently largely corroborated by the confession of John, be substantially true the hanging of these two Indians in the presence of those in full possession of the facts, instead of teaching a salutary lesson, as intended, will be but a grim mockery of justice. We once more solemnly warn the authorities to be careful what they do, and not throw away such an opportunity of making a thorough investigation and dealing out even-handed justice.

SERIOUS ACCIDENT.—The scaffolding upon which were several workmen, on the Hudson Bay Company's freight sheds at Esquimalt, fell yesterday afternoon, and two men were hurt. John Forsyth had his wrist broken, and Mr. Leech was seriously injured.

SOLIDS AND FLUIDS.—At the Firemen's Picnic, on the 24th, Mr. Piper will cater to the public in solids, and Mr. McNeill in fluids. The latter was the highest of six friends who competed for the privilege, and he pays \$151.75 for the field.

TOO LATE TO GROWL.—The thistle-slayer has been two days cutting and slashing with all his might in the destruction of the obnoxious weed; then why not give him time to complete the work he has so nobly commenced.

TARGET.—An Indian by the name of Jim was charged yesterday, at the Police Court, with stealing \$10 out of a valise. The prisoner was remanded for three days, to make further enquiries.

SENTENCED.—F. Dechaux, who was found guilty of selling whiskey to Indians, was yesterday sentenced to a fine of \$25, or in default of payment two months' imprisonment.

FOR NANAIMO.—The steamer Sir James Douglas will sail for Nanaimo on Tuesday morning, at 7 o'clock.

HOOK-SWINGING.—The following account is given in an Indian journal of a practice which we had ventured to think had disappeared long since under British domination:

Recently, while laboring in the itinerancy, I witnessed the "hook swinging festival." At the beginning of this festival, the priest of the pagoda sends the sacred ashes and other things to a person whom he selects as a victim to be suspended. On the reception of these gifts the man commences a fast, denying himself all bodily indulgences. On the day fixed for the celebration of the feast he enters the temple with pomp and ceremony and appears before the idol. The priest performs a ceremony over him, uttering mantras or heathen forms of prayer and he pretends to be under the influence of devils, and acts like a mad-man. While in this state some person standing by gives him a severe blow on the back, which produces a slight swelling. The muscle is here pierced in two places, and openings are made sufficient for the insertion of the iron hooks, which are immediately introduced, and then pressure is applied on every side of the wound to prevent the issue of blood, greatly increasing the man's sufferings. The fact that no blood flows is regarded as a miraculous interposition. After these preliminaries the man is taken to a machine upon which he is about to be suspended and swung about. This consists of a four wheeled platform car in the centre of which is an upright post, twenty or thirty feet high, and upon the top of it a traverse beam forty feet long, fitted to work like a well sweep, and also to be swung round in a circle. Upon one end of this beam the hooks already inserted in the man's back are fastened by strong ropes. Long ropes are also attached to the other end by means of which several men manage its motions. The victim is first swung around in a circle and then raised high in the air, while the multitudes below fill the air with their shouting. In going up he favors himself by catching hold of the rope with his hands, but pretty soon lets go, and is suspended by the hooks, being bent almost double, his head and feet hanging, and the muscles of his back being pulled out to the utmost tension. While he is hanging in this position, the car is drawn by hundreds of men over the rough ground, around the temple, the man being shaken and tossed from side to side by the motion of the car. It was a full hour by my watch that I saw the man thus suspended. His countenance was a picture of distress, and when taken down he seemed much exhausted. He is next presented to the people to receive their offerings, and receives large presents of money and lands—property such as he could not have accumulated by the labor of years. He is now taken to his house, the hooks are removed, and his wounds are treated by the application of small cakes of mud, made so hot as to burn the skin. Three of these plasters are placed on each wound, and kept there for seven days, when they are taken off and other medicines are applied. This is severe treatment, but the wounds are said to be effectually healed by it in twenty days, if the man survives it. On the first day he suffers but little, because he is made insensible by intoxicating drugs and potations. On the second, and several succeeding days, his sufferings are so great that he will often attempt to commit suicide.

A POLITE TRANSACTION.—A Frenchman, while at Naples, was introduced to an assembly of the first ladies, by a Neapolitan nobleman. While he was there his snuff box was stolen from him. The next day, being at another house, he saw a person take snuff out of his box. He turned to his friend:

"There," said he, "that man in blue with gold embroidery, is taking snuff out of my box, stolen yesterday. Do you know him? Is he not a sharper?"

"Take care," said the other, "that man is of the first quality."

"I do not care for his quality," said the Frenchman. "I must have my box again; I'll go and ask him for it."

"Pray," said his friend, "be quiet and leave it to me to get back your box."

Upon this assurance the Frenchman went away, after inviting his friend to dine with him next day. He accordingly came, and as he entered said:

"There, I have brought you your snuff box. I did not wish to make a noise about it, so I picked my pocket."

DIARY FOR A HOT WEEK.—Sunday; day of rest; of course nothing can be done.

Monday—Being early in the week don't be too precipitate in beginning anything.

Tuesday—Determine not to let the week go by without achieving something brilliant.

Wednesday—Resolve on vigorous measures for to-morrow.

Thursday—Mature yesterday's deliberations.

Friday—Rather too late in the week to do anything.

Saturday—Give yourself up to society, and consult friends (who know best) what is to be done next.

The Government Messenger, the official organ of the Russian empire, announces in its number of the 6th May, that the journal *Moscow* is definitively suppressed.

The Canadian Engine and Machine Works at Kingston, are making cars for the Boston Car Company, and sent off their second lot of ten a few days since.

Interesting Report and Journal.

There has just been issued from the Government Printing Office, a Report and Journal of the cruise of H. M. S. Sparrowhawk up the North-west Coast, upon the melancholy occasion of the death of the late Governor. The papers do credit to the Chief Commissioner, and contain much interesting matter. We can only find room in the present issue for the following extracts from the Report:

It is a matter of congratulation that the settlement of the murderous quarrel carried on during the past twelve months between the Naas and Chinampas Tribes, which was the main object of our lamented Governor's visit to this part of the Colony, has been so fully and satisfactorily accomplished.

From information obtained from Mr. Duncan, Mr. Tomlinson, and Mr. Cunningham of Fort Simpson, as well as from Indians of the contending tribes, I am satisfied that the killing of the Naas Indian in which this bloody dispute originated was purely accidental. A Naas Indian, formerly resident at Metlakatlah, gave a feast (on the occasion of his marriage to a Chief's daughter) to members of both the Naas and Chinampas Tribes, who up to that time had been living on the most friendly terms. For this feast a supply of rum was purchased from the Schooner Nanaimo Packet, and during the drunken orgies which ensued a Chinampas Chief, by the accidental discharge of a pistol, killed one of the Naas people.

"I was fortunate enough to detect this schooner, after a twelve months' immunity, in the act of again dispensing liquor to the same Indians amongst whom the quarrel between these tribes originated, and almost at the very place where it arose. Her seizure and condemnation (after due enquiry) had a very salutary effect in showing to the tribes of that neighbourhood the Government's determination to punish offenders against the law, whether white people or Indians."

"In the fight which followed the accidental killing of the Naas Indian, two Chinampas Chiefs were killed; and, in accordance with the savage requirement of Indian law, the loss of these Chiefs had to be compensated by the slaughter of an equivalent in number and rank of the opposite tribe. Thus, murder followed murder in continual succession, with no prospect of complete satisfaction on either side. There was no real ground for the hostility of these tribes towards each other; they were at the contrary, anxious to be at peace, as to avail themselves of the opening fishery in the Naas River, which affords the main source of subsistence to all the Indians of this neighbourhood. Without the interposition of some powerful peace-maker, however, reconciliation was impracticable; and this quarrel might have lasted for years, with ever increasing waste of blood, but for the intervention which ensured its complete cessation."

"The mode by which these warring tribes were brought to relinquish their feud, and bound over to live in future according to English law, appears in happy contrast to the manner in which, by bombardment and burning of Indian villages, canoes, &c., the authority of Government has on some former occasions been enforced with such unnecessary infliction of loss of life and impoverishment, and even, in some cases destruction of entire tribes. It may confidently be expected that a more salutary and lasting effect will result from the persuasive but firm course adopted towards the Naas and Chinampas, which was so satisfactorily consummated, on board H. M. S. Sparrowhawk, on the 2nd June, than could have been produced by a more forcible mode of proceeding; and it is a very gratifying reflection, in which all who have served under Governor Seymour will, I am sure, fully sympathize, that this his last official act was in every way so creditable to his administrative ability, and so entirely in consonance with that kindness of heart which was his peculiar characteristic, and which will long cause his memory to be cherished among us."

"It must be borne steadily in mind, however, that as these tribes were specially placed by the direct act of the Head of the Executive under the operation of English law, that law must in future be enforced among them at whatever cost."

"Whilst at Metlakatlah and Fort Simpson enquiry was made into the merits of the conviction and fine of Mr. Cunningham, the Hudson's Bay Co.'s Trader at Fort Simpson, by Mr. Duncan acting as Justice of the Peace, on a charge of selling liquor to Indians at the Company's Post at Fort Simpson, which conviction had been sustained on appeal before Chief Justice Begbie, but subsequently submitted by Dr. Tolmie, acting for the Hudson's Bay Company, for the Governor's consideration. Upon investigation of the case on the spot, it did not appear that there were any grounds for the Governor's interference with the Magistrate's decision and award."

"The investigation held at Bella Coola into the complaints of the white settlers at that place as to the behaviour towards them of the Indians amongst whom they reside, leads to the consideration of how far Government is responsible for the protection of Settlements situated as this is, so great a distance from the settled portions of the Colony, and lying so far off any travelled line of communication. It is impossible to exercise any supervision or control over either Indians or White people at such remote posts; quarrels arise, the real origin of which it is often impossible to ascertain, and Government is called upon to punish the Indians, without its being proved that they are more blamable than their accusers."

"It is obvious from the beneficial results of the late cruise of the Sparrowhawk, how desirable it is that a Ship of War should periodically visit the various settlements, Mission Stations, and Indian Villages along the Coast. By such means only, can any measure of protection be given to the scattered Settlers and Missionaries, and the wild tribes amongst whom they are located be kept under any control; and by blows such as that inflicted in the confiscation of the Nanaimo Packet, the sale of liquor to Indians, the cause of nearly all Indian outrages towards white people, as well as among themselves, will be rendered so hazardous a business that the trade must soon be extinguished in that part of the Colony."

"Some duly authorized Agent of the Colonial Government should, however, be sent in cases on board of ships engaged in such missions, to share, if not to bear wholly, the responsibility of any extraordinary proceedings that events may necessitate; for Officers in command of Her Majesty's Ships, although holding Commissions as Justices of the Peace, may reasonably be supposed to be disinclined to take decisive action in police matters which can hardly be considered within their proper jurisdiction, and which may involve questions of material importance and great pecuniary interest to the Colony."

REMOVAL.—H. J. Mann & Co. are removing their Saddlery and Harness establishment from Yates street to the premises, formerly occupied by Callingham & Co. Fort street.

The North West Territory.

The following article is from the St. John, N. B. *Daily News* of June 18th:—"Fresh information concerning the soil, climate and resources of our North West Territory, daily coming to hand, tends more and more to shew how valuable is the great country just added to the Dominion. It does not matter now from what quarter the information comes, whether from the servants of the Hudson's Bay Company whose traditional policy it has been for two hundred years to disparage that region, or from independent explorers and travellers who have traversed or are traversing it, or from intelligent Americans who are well posted on the subject, the accounts all substantially agree in representing the great North Western basin as one of the finest countries in the world. Many circumstances have concurred to enrich the soil or mollify the climate of this splendid country. Lying low, fertile mould from the slopes of the Rocky Mountains and the high lands of Minnesota have been washed into its valleys and spread over vast spaces. The same low altitude has doubtless much to do with its geniality of climate. Fort Edmonton on the North Saskatchewan, away on the very foot of the Rocky Mountains, is only 1000 feet above the level of the sea. While Denver in Colorado occupying the same relative position near the Rocky Mountains is 5,317 feet above the level of the sea. Denver is thirteen degrees of latitude south of Edmonton, and yet the climate of the latter is milder than that of the former. There is no corresponding lofty Utah plateau in our north West, and the Rocky Mountain is comparatively narrow there, and pierced with many gorges, which permit warmth and moisture to reach the valley of the Saskatchewan from the Pacific. The whole fertile belt from the Red River to the Rocky Mountains enjoys an ample rain fall. Far otherwise is it over the great central plain south of that belt. There, over an immense region cultivation is not possible except by irrigation, and that is impossible to a large extent."

Referring to the prospect of a Pacific Railway through our North West, says an American writer at St. Paul:—"While the route of the American Pacific, is the apex of a continental dome, ranging from 5,000 feet at the Piedmont, 8,000 feet in the most favorable passes, the Saskatchewan or Canada Pacific route reaches the immediate Piedmont of the Rocky Mountains over a depressed surface, nowhere exceeding 2,000 feet, and will traverse a favourable pass which is less than 4,000 feet in elevation above the sea."

We trust the Dominion Government will throw open this magnificent country with all practicable speed."

President Grant has distinctly asserted his determination to put an end to all assassinations and other disturbances in South Carolina and Florida, in the future, if possible.

The Pope is reported to have said that, of the many felicitations he received on the anniversary of his jubilee, none gave so much pleasure as the unexpected courtesy of the Queen of England.

Dr. James Rush, of Philadelphia, will his estate, after paying some small bequests to relatives and servants, to the "Ridgeway Branch of the Philadelphia Library." The amount thus donated is estimated at about \$100,000,000.

Train says he will not leave the Pacific coast till he captures Vancouver's Island. Thank heaven for that assurance.

THE WILLOWS.—The proprietor of the Willows has just completed a platform for dancing, at their grounds, measuring 30x40 feet. It is built between two gigantic oaks, and perfectly shaded from the rays of the sun; and in another enormous tree are seats for the orchestra, raised about 10 feet from the ground. The whole structure is very creditable to the enterprising proprietor, and the public have only to visit the Willows, on the Cadboro Bay Road, to become satisfied that it is the pleasantest place near Victoria to enjoy oneself."

BOOK BINDING.—T. N. Hibben & Co. have, in connection with their Book & Stationary business, added Book Binding, and the various branches connected therewith, and will add the mechanical parts, & material necessary for meeting the requirements of the Colony, guaranteeing neatness, dispatch and satisfaction in all work entrusted to them."

VICTORIA HOUSE.—Just received by Express, the New and Elegant Lace Scarfs, (Garde Francaise, Chevreuse and Incroyable), Real Lace Shawls, Irish Poplins, Glace Silks, Satins, Ribbons, Trimmings, Buttons, Flowers, Trimmed Sets, Lace Falls, Silk Stoles, New Dress Materials, and a variety of Fancy Goods; also a complete assortment of Ladies' Skirts and Underclothing.

QUICK TIME.—Express goods have been received at the London House which left London in May. They consist of the new Winter-dress, Loch Lomond, Killarney, and Baden Costumes, woven in one piece; Trimmings and Buttons of latest styles; Bonnets and Hats as worn this summer in Paris; Ribbons; Japanese Silks, and fancy goods."

He who drinks any but Fell's coffee is liable to drink trash. Beware of spurious imitations.
